

Grilled Burgers at the Press of a Button

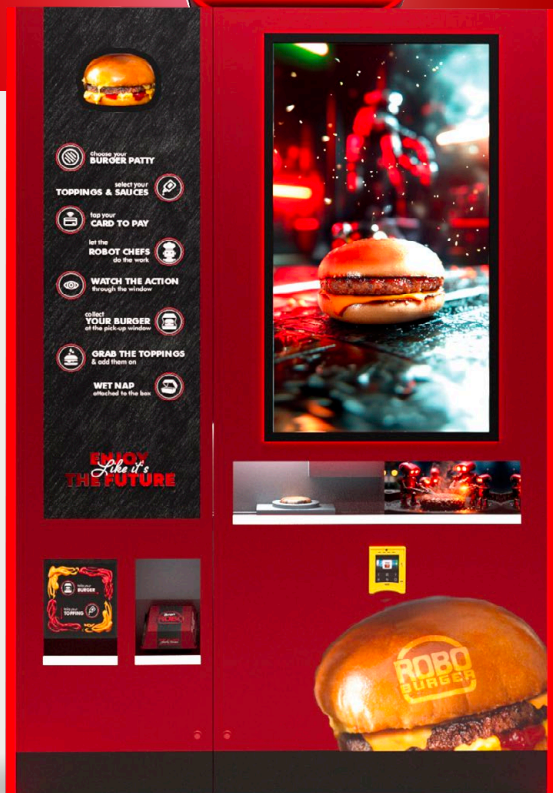

The Fully Automated Burger Kitchen

POWERED BY
**SWEET
ROBO**

RoboBurger

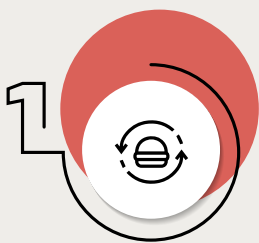

RoboBurger is a revolutionary food automation kiosk that grills fresh, gourmet burgers in 3.5 minutes—no staff, no kitchen, no complications. This compact 10-square-foot unit is fully self-operating and self-cleaning, making it ideal for high-traffic locations like malls, airports, colleges, convenience stores, and entertainment venues.

Built for 24/7 operation, RoboBurger delivers hot, restaurant-quality food anytime, anywhere. It toasts the bun, grills the patty, dispenses sauces and toppings, and serves a delicious, fresh, hot burger—every time. NSF and UL certified, it meets the highest safety and food standards, enabling nationwide deployment. With low operational costs, high margins, and zero labor dependency, RoboBurger offers a scalable, future-ready solution for modern food service.

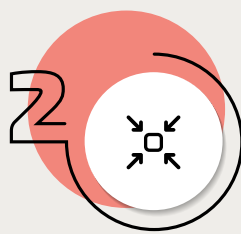

Why RoboBurger?

Three Reasons It's Changing the Game

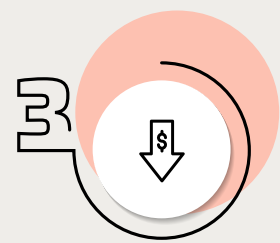

24/7 Hot Food, No Staff Needed

RoboBurger operates reliably around the clock, solving labor shortages in locations where kitchens can't go.

Compact & Kitchen-Free

Only 10 sq. ft., no kitchen buildout or grease trap—just plug in and serve real burgers anywhere.

Low-Cost, High-Return Model

Own multiple units for less than one restaurant; scalable, profitable, and ideal for modern food entrepreneurs.
